VIA ELECTRONIC FILING

Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: Ex Parte Notification Regarding MB Docket No. 00-168

Dear Ms. Dortch:

On December 21, 2011, Lisa Fields of Broadcast1Source, W. David Winslow of Winslow Systems, Head of Technical Infrastructure for Litera and I met on behalf of Broadcast1Source with the following of the Federal Communications Commission: Umasankar Arumugam, K. Tracey Brown-Etter, Greg Elin, Joseph Giuliani, Matthew Heine, Ramesh Muthukumaran and Pat Rinn all of the Office Managing Director, James Bradshaw and Hope Cooper, Media Bureau.

Lisa Fields made a presentation describing the capabilities of Broadcast1Source and its Electronic Public Inspection File (ePIF) internet portal developed to serve broadcasters and provide a facility for organizing and maintaining in electronic paperless format all materials required to be in the Local Public Inspection File and available to the public. Broadcast1Source described how this system is already internet ready and could be adapted to meet the needs of the FCC. Broadcast1Source noted that it would be an advantage to use and allow a developed system already adopted by many broadcasters. Broadcast1Source also explained its GSA status. A copy of the PowerPoint presentation presented to the FCC staff is attached.

Respectfully submitted,

Gregg P. Skall
Counsel, Broadcast1Source
